

When It Rains It Pours

Merle Haggard

I'm all alone and I'm feeling blue
Wishing you were here with me
So I could say to you
Honey, I Love you

It's 2 a.m. and I can not sleep
Cause you are so very,very far from me
And It hurts me
To be alone

You are the kind that loves to here
Sweet love words whispered in your ear
But I'm a silent man
I don't know the lingo

The rain is sprinkling outside my door
And wondering when it will begin to pour
Like my life, when it rains it pours

When it rains it pours
Lightning and thunder
It all makes me wonder
When will it end

When it rains it pours
It all seems so sad
Before it's over
It will wash away all i had

When it rains it pours
Lightning and thunder
It all makes me wonder
When will it end
When it rains it pours
It all seems so sad
Before it's over
It will wash away all i had

Now the pour is over
And it's washed away all i had

Yeah, the pour is over
And it's washed away all i had
