

# Alone

Metalium

Is someone out there or are we all alone?

Signals calling leaders  
The universe seems dark and wide  
Focus on the area  
Where space offers new sights

Is there something out there  
Big as our galaxy  
The furthest thing we've seen  
Scientists getting paralyzed  
Your age, your shape, your colours  
Sure you got more to offer  
Kept your secret all your life

Wind and rain  
Water, light and thunder  
Not existing in your nights?

Share now your secrets with me  
We're so far apart  
Maybe you crossed our way long before our days  
We're so far apart  
Or are we alone? Yeah!

Wind and rain  
Water, light and thunder  
Not existing in your nights?

Share now your secrets with me  
We're so far apart  
Maybe you crossed our way long before our days  
We're so far apart  
Is someone out there or are we all alone?
