

## Beach

Mew

I was on my way, I swear  
But I took a wrong turn, there  
For I zigged when I should have zagged  
It's a sombre turn-out tonight

In chemistry class  
Tragedy in our park  
Something happened in the dark  
We bought raincoats and pretty charms

And I did remember this time  
To keep it inside  
Now we keep the water still  
On the broken window sill  
For if not, we'd have to move

It is sweet outside  
Where it seems magical  
And if nothing works  
We'll do nothing  
I hope we're on time

And we shouldn't look at the sky  
The perilous light  
We were not allowed outside  
And no one could tell us why

I got worried  
With shaky hands  
So we said the words that we kept  
For worrying times

I was on my way, I swear  
But I lost my way somewhere  
And the trees were listening

From the sill is trickling water when the rain returns  
We have our suspicions, thinking what my heart confirms

It is sweet outside  
Where it seems magical  
And if nothing works  
We'll do nothing  
Save yourself tonight  
Asleep in the dark  
I hope we're on time
