No more stories, no more stories, no more stories, no more stories

Are told today, told today, told today I'm sorry, I'm sorry, I'm sorry They washed away, washed away, washed away

No more stories, no more stories, no more stories, no more stories

The world is grey, world is grey, world is grey, world is grey I'm tired, I'm tired, I'm tired
Let's wash away, wash away, wash away

No more stories, no more stories...
