

# Hawaii

## Mew

You know time goes by fast like rain.  
It swallows your every sound from whisper to rising howl.

Good luck trying to be someone  
If you make it then you've won  
You'll grow up to be someone

I can't go without you.  
No, I need to have you.  
Have you met someone?  
Have touched the bottom?

The world is like you  
Here times the charm  
Like a dog it's breathing  
They're just as lonely  
And we all make mistakes once in a while

The world is like you  
There times the charm  
Like a dog it's breathing

And what's right beyond doubt  
Things just didn't pan out  
It's a movie set  
It's a world constructed  
I can't go without you  
I know I got to have you  
Have met someone?  
Have you touched the bottom?

The world is like you  
Three times the charm  
Like a dog it's breathing  
They're just as lonely  
And we all make mistakes once in a while

The world is like you  
Here comes the charm  
Like a dog it's breathing

They're just as lonely  
And we all make mistakes once in a while

The world is like you  
The world is like you
