

# The Best

Michael Bolton

Nobody like you, there's nobody like you

I've never been so sure about anything  
This isn't like me, what's going on?  
And I've never been more aware of anything  
But I know it's real 'cause every time

Every time you're around me  
I get everything tangled up inside me  
And it's so hard to breathe  
But I want you to know

Baby, you're the best part of me, yes, you are  
The best, I finally know  
The best, wanna let it show

Baby, you're the best part of me  
The best, I finally know  
The best, wanna let it show

Wanna show you off, let me show you off  
Gotta show you off to the world  
You're my heartbeat, to the world  
You make my heart beat

Wanna show you off, let me show you off  
Gotta show you off to the world  
You're my heartbeat, to the world  
You make my heart beat

I'm only half of me without you here  
You put together all of the pieces  
Missing from me, erased all of my fears  
Baby, you turned me up inside

Every time you're around me  
I get everything all lit up inside me  
You made me believe  
Now I need you to know

Baby, you're the best part of me, yes, you are  
The best, I finally know  
The best, wanna let it show

Baby, you're the best part of me  
The best, I finally know  
The best, wanna let it show

Wanna show you off, let me show you off  
Gotta show you off to the world  
You're my heartbeat, to the world  
You make my heart beat

Wanna show you off, let me show you off  
Gotta show you off to the world  
You're my heartbeat, to the world  
You make my heart beat

There's nobody but you that can do what you do  
I finally found forever with you in my life  
There's nobody but you that can do what you do  
Finally found forever with you in my life

Baby, you're the best part of me, yes, you are  
The best, I finally know  
The best, wanna let it show

Baby, you're the best part of me  
The best, I finally know  
The best, wanna let it show

Wanna show you off, let me show you off  
Gotta show you off to the world  
You're my heartbeat, to the world  
You make my heart beat

Wanna show you off, let me show you off  
Gotta show you off to the world  
You're my heartbeat, to the world  
You make my heart beat

There's nobody like you who can do what you do  
Nobody like you, nobody like you  
Nobody like you, nobody like you  
Nobody like you, nobody like you
