

## City Lights

The Michael Schenker Group

Spent my life girl leaving this town  
Taking a break from your darker side  
You lost your chance girl of bringing me down  
Telling your friends everything was right  
Gonna Ride to a safer place now  
You don't know how good it feels  
The last fight in the middle of the night

Why are you out to get me  
One more time  
Can't you ever leave it  
Baby your so blind

All the city lights  
Flash through my mind  
All the city nights  
Is when i feel alive  
All the city lights  
Are blinding out my past  
Keeps going over and over

You had your claws in me and i ain't going down  
Had a taste, wet your appetite  
Said t the time quit your messing me around  
I'll get the hell outa here find a life

I can't get far from you, your loves unreal  
I can't seems to getmy message through

All the city lights  
Flash through my mind  
All the city nights  
Is when i feel alive  
All the city lights  
Are blinding out my past  
Keeps going over and over
