

Don't You Let Me Go

Michael Schulte

So I was wondering how the time went by
When we were living through the summertime
We were so good

Morning after morning, dear
Living in this endless year
We were so deep

Nothing lasts forever
But I thought we would stay
Oh I was falling deeper
As I watched you fade away, from us

In the pouring rain
We were standing here
Out all alone
Just say something now

Staring through your eyes
Running out of time
Don't you let me go
Oh don't you let me go
Just don't you let me go

Slowly yeah you lost the way
And forgot about the better days
But they're still here

But don't you think that this is it
Don't you think that we should try
To keep the flames alive, alive

I know nothing lasts forever
But I thought you would stay
Oh I was falling deeper
As I watched you fade away, from us

In the pouring rain
We were standing here
Out all alone
Just say something now

Staring through your eyes
Running out of time
Don't you let me go
Don't you let me go
Cause I'd never come back

In the pouring rain
We were standing here
Out all alone
Just say something now

Staring through your eyes
Running out of time
Don't you let me go
Don't you let me go

Cause I'd never come back

In the pouring rain
We were standing here
Out all alone
Oh just say something now

Starring through your eyes
Running out of time
Don't you let me go
Oh just don't you let me go
Don't you let me go
Don't you let me go
No don't you let me go
Don't you let me go
Cause I'd never come back
