

Let It Go

Michael Schulte

I can't take all this tension in the room
Can you feel it?
Cause I feel it
And I
Can't help myself when I'm here close to you
I just need this, yeah I miss it

And I can't help myself
When I'm here close to you
I just need this, yeah I miss it

I take back the words I said
Erase them from your head
Wipe those tears of the floor
It don't matter anymore
Hanging on by a thread
I hold on to what is left yeah

If we just let go
Leave it behind
We can lose control
Follow my stride
I can take you home
Turn off the lights
If we just let go
Let it go, I can take you home
Let it go, I can take you home

I was wrong and I made my mistakes
But I'm sorry, don't get angry
I'm a fool at the end of the day
I feel empty, need you with me

I take back the words I said
Erase them from your head
Wipe those tears of the floor
It don't matter anymore
Hanging on by a thread
I hold on to what is left yeah

If we just let go
Leave it behind
We can lose control
Follow my stride
I can take you home
Turn off the lights
If we just let go
Let it go, I can take you home

Leave it behind
We can lose control
Follow my stride
I can take you home
Turn off the lights
If we just let go
Let it go, I can take you home
Let it go, I can take you home

Let it go, I can take you home
I can take you home

If we just let go
Leave it behind
We can lose control
Follow my stride
I can take you home
Turn off the lights
If we just let go
Let it go, I can take you home
