

Lighthouse

Michael Schulte

So it's us
Fading in the background
Talking low
Only us and after
Turning round like a tide
The whole world's in my arms tonight so
Let me pull you close

I've been waiting to find
Someone I can call my own
Now that you're on my side
Can't imagine life before

Somewhere in the darkest waters
I will guide you home
I've been waiting to find home
Like a lighthouse
I will guide you home
Like a lighthouse
I will guide you home

So, it's fine
Every step we're making
Take it slow take our time
Only for the moment
You and I, this is us
The whole world needs to know tonight
So, let me hold you close

I've been waiting to find
Someone I can call my own
Now that you're on my side
Can't imagine life before

Somewhere in the darkest waters
I will guide you home
I've been waiting to find home
Like a lighthouse
I will guide you home
Like a lighthouse
I will guide you home

And if we're honest
When the water's getting higher, we can float
Oh, so honest
Won't you keep me close and light will guide us home

I've been waiting to find
Someone I can call my own
Now that you're on my side
Can't imagine life before

Somewhere in the darkest waters
I will guide you home
I've been waiting to find home
Like a lighthouse
I will guide you home

Like a lighthouse
I will guide you home
