

When water falls

Michael Schulte

I have underestimated
a certainty for far too long
walking through the streets of blindness
with stars that I won't see tonight

A man who says 'go here',
a girl with long blonde hair
singing songs about her dad
A boy runs all alone
through the endless rain
under a bright blue sky

Everytime the water falls
it's like a thunder in my heart
when water falls
I fall with you, I let you go

Time is flowing like a river
meaningless and out of sight
winds are blowing with no passion
carelessly just pushing our lifes

Had I known that you're
here to say goodbye
might have never let you go
would have taken you
to a place where we
could have stayed without a clue

Everytime the water falls
it's like a thunder in my heart
when water falls
I fall with you, I let you go

Just in case you here what I say
in case you know how I think
in case you feel what I feel
let me say: I hope that you're waiting

Everytime the water falls
it's like a thunder in my heart
when water falls
I fall with you, I let you go
