

We Both Know

Michał Bajor

We share no secrets anymore, now
We've know each other far too long
And you don't remember me at all, now
No longer there to catch my fall
Look into my mind
That's all I need right now, yeah
'cause now I guess we finally know the score
'cause we both know that beauty
Our beauty lies within the heart and soul forever
This feeling never ever never dies, open your eyes now
And see the light so bright, shine for us
Brighter than ever
I only want to be with you

We feel no anguish anymore, now
We know each other far too long
And you don't consider me at all now
No longer there to hear my call
Look into my mind
That's all I want right now, yeah
'cause now I guess we finally know the score
'cause we both know the beauty
Our beauty lies within the heart and soul forever
This feeling never ever never dies, open your eyes now
And see the light so bright, shine for us
Brighter than ever
I only want to be with you

We could have everything we dreamed, my love
We could have everything we owned
'cause we had it all at one time
We let it slip away, so far away,
So far away
It seems like forever
But I still want you back
And I know you think
It's too late
Twinkle, twinkle little star
Cuts like a knife
So let's try again
