

The Light

Michelle Tumes

All the people sitting in the darkness
Shine the light
Stand up and share a little brightness
Shine the light
In a world that grows so faint and dim
I believe His light will enter in
Everybody shine the light
Don't hide the light
If they find the light
Then the world will change
All the people gotta see the light
So be the light
For the world we pray
Through the face of Christ
They'll see the light
All the people sitting by the lamp stand
Shine the light
Let it shine from the valley to the highlands
Shine the light
Every boy and girl, every woman and man
Share the love received from the Father's hand
Everybody shine the light
Don't hide the light
If they find the light
Then the world will change
All the people gotta see the light
So be the light
For the world we pray
Through the face of Christ
They'll see the light
Everybody shine the light
Don't hide the light
If they find the light
Then the world will change
All the people gotta see the light
So be the light
For the world we pray
Through the face of Christ
They'll see the light
Shine the light
Don't hide the light
If they find the light
Then the world will change
All the people gotta see the light
So be the light
For the world we pray
Through the face of Christ
They'll see the light
