

# Alone

Midge Ure

Save me, save me, save me  
Give this soul a helping hand  
Help me, help me, help me  
Help revive and cure this hopeless man  
Nothing comes from nothing  
And that's exactly what I am  
Alone

D'you think if I  
Let a little light into my safe, dark world  
That what I'd see was frightening?

Sat behind the walls I'd built  
To hide me from my feeling all alone  
Alone  
Alone

Save me, save me, save me  
Give this soul a helping hand  
Help me , help me, help me  
Help revive and cure this hopeless man  
Nothing comes from nothing  
And that's exactly what I am  
Alone

What if your hand  
Plucked me out from obscurity  
And pushed my stupid face around  
To face my insecurity  
Would I have the strength  
To change my ways, not be alone?

Get myself a future  
Find myself a new religion  
Piece my live together  
Or maybe not  
I could revise so I could make it so much better  
Better than the dream I've got
