

Lost in the Night

Midland

California sunset
You walked in the bar, I lit your cigarette
Do you remember dancin' at the Holiday Inn
Your fingers through my belt loops, and my lips on your skin
Shootin' stars and satellites
Shinin' down on you and I

Lost in the night
Oh darlin'
I was right there
Holdin' you tight
Oh baby
When the sun came up you whispered goodbye
Now you're lost in the night

Little bar in Marina del Rey
You turn the radio off but I can still hear the song playin'
You laughed at me when I got the words wrong
I would've bribed God just to hold back the dawn

Lost in the night
Oh darlin'
I was right there
Holdin' you tight
Oh baby
When the sun came up you whispered goodbye
You were lost in the night

Is there a melody to keep your heart beatin'
And takes you back to the time

We were lost in the night
Oh darlin'
Do you ever go there
Holdin' you tight
Oh baby
When the sun came up you whispered goodbye
You were lost in the night
