

# Will You Carry Me Across the Water?

Midnight Choir

Will you carry me across the water for being true?  
Will you carry me across the water for being true?  
I've been digging a hole in the water for me and you  
Will you carry me across the water for being true?  
Will you carry me across the water for being true?

There's a hole in the water, me and you  
There's a home somewhere beyond the perfect blue  
I've seen the raindrops falling and I know it's true  
They've been digging a hole in the water for me and you  
They've been digging a hole in the water for me and you

Voices of prophets have spoken thru history  
Forces of such power is not known to me  
Many among us, many known to thee  
Did you carry them across the water for being free?  
Did you carry them across the water for being free?

Will you carry me across the water for being true? (\*3)  
I've been digging a hole in the water for me and you  
For me and you.
