

About You

Mike Shinoda

Even when it's not about you, about you
All the sudden it's about you now, oh
Even when it's not about you, about you
All the sudden it's about you now, oh

Even when it's not about you, about you
All the sudden it's about you now, oh
Even when it's not about you, about you
All the sudden it's about you, about you
About you, about you, about you...

This is that gather round it, and wonder where I found it
This is that wake up make your agent have your tour re-routed
This is that drama comma pain and ain't no way around it
Cause somehow still it's hard to know what I can say about it
I buckled up, told myself to suck it up
I was scared to death to get up there and spill my fucking guts
I was saying pull your stupid self together buttercup
Get it cracking Back in Black until you have em Thunderstruck
But

Even when it's not about you, about you
All the sudden it's about you now, oh
Even when it's not about you, about you
All the sudden it's about you, about you...

No, there's not a single thing that I can say
Not a single solitary, every meaning changes shape
Even when there's no connection back to you in any line
All the sudden it's about you and it gets me every time but
What the fuck is left to author anyway
When I basically been writing since the Raiders ran LA
I'm afraid that maybe I've said everything there is to say
Maybe I should make an exit while there are ways to get away, cause

Can't find the words to a memory
But these are just words to a melody
Find something that works fits the symmetry
For only a quick broken remedy
And I'd give anything to choose
Pick out the words I bring home to you
How can I make due
Put a smile on, change my attitude
And even though it's not about you
Everything is all about you, all...
All about you

Even when it's not about you, about you
All the sudden it's about you now, oh
Even when it's not about you, about you
All the sudden it's about you now, oh

Even when it's not about you, about you
All the sudden it's about you now, oh
Even when it's not about you, about you
All the sudden it's about you, about-bout...

Even when it's not about you, about you
All the sudden it's about you now, oh
Even when it's not about you, about you
All the sudden it's about you, about-bout...

Even when it's not about you, about you
All the sudden it's about you now, oh
Even when it's not about you, about you
All the sudden it's about you, about-bout...
