(I'm off of the Earth, on a ride, alone)

Yeah

Lift off like Virgin Galactic My Richard's too Branson to fuck with you bastards Very legendary that's some matter of fact shit You're the opposite of star, it's like rats spelled backward I flow poems out to Saturn and passed it Easy as a standard anti-gravity backflip Satellite tracking can't map up my tactics I spit the same shit they split an atom in half with No, it's not what I want but it had to be I spent six months just recharging my battery Imagine me quitting, what a travesty that'd be You space shuttle Challengers are nothin' but tragedies So take care on the path that you're headed I'm the father to your star, don't you ever forget it I don't drop mics, only let it smoke where I set it And I don't play, even when they press it, get it?

I'm off of the Earth, on a ride, alone
I'm drifting away, out of time, afloat
Away from the truth, away from the night, away from the day
I'm off of the Earth, on a ride, alone

Please brace for impact I must've went to space and got sent back But I'm still intact In fact, take a picture of me You can see that I'm a star with your lens cracked Supernova, in Caesar's Palace stuntin' on my opponents 'Cause history'll show, we done been to war like Romans Did that dance with the devil, hell hot as a kettle So it's no wonder why I put this ice on all of my metal And wear that shit like a medal Used to think I was a joker, no Jared Leto When I said I'd get us out the ghetto Slam my foot on the pedal Book the studio when I couldn't afford instrumentals Fuck it, record acappella Flyin' coach dreaming Coachella until they banned me Now they like Bambi's mother's, dead I'm on to these Grammies I'm rollin' these grams gladly, purple and green like Daphne Shades on like Velma, hair long like Shaggy Crushin' addys in my water, got my voice raspy Haven't slept since California and that shit was last week Paranoid when I sleep But when I'm high, I'm happy That's why I need to kiss the sky when I get stuck in the valley Lift off
