

# Cold Light of the Day

Miles Kane

Antisocial on the network  
Feeling total disconnection  
The writings on the plasma wall  
Your friends don't come to the shows no more  
Your ex-girlfriend no longer posts  
She must be somewhere living a lie  
You talk to the dead that she left back in time  
The thoughts of faultless crime

I see it all in the night, I see it all of the time  
(In the cold light of the day)  
I feel it when I'm in love, I feel it when I'm alone  
(In the cold light of the day)  
I see it all in the night, I see it all of the time  
(In the cold light of the day)  
And when you get it together, can you get it to go?  
(In the cold light of the day)  
All of the time  
(In the cold light of the day)  
Out on the night  
(In the cold light of the day)  
N-n-n-n-night!

All the sins of Cincinnati  
The pin dives deep straight through his heart  
Her current location makes her happy  
At least that's what the pictures say  
If you give me all the answers  
I'm not quite sure what I'll say  
Boy, you're just like Charlie Manson  
You gotta turn up and go out and play

I see it all in the night, I see it all of the time  
(In the cold light of the day)  
I feel it when I'm in love, I feel it when I'm alone  
(In the cold light of the day)  
I see it all in the night, I see it all of the time  
(In the cold light of the day)  
And when you get it together, can you get it to go?  
(In the cold light of the day)  
All of the time  
(In the cold light of the day)  
Out on the night  
(In the cold light of the day)  
N-n-n-n-night!  
(In the cold light of the day)  
Oh!
