Milky Chance

Don't get me wrong  
We've been here now for too long  
We were fallen in love  
Now we're fallen apart  
But baby blue  
This is how I feel for you  
I still want you so bad  
Am I losing you instead?

You-ooh  
You stole my heart with grace  
Ooh-ooh-ooh  
I'm just trying to embrace  
You-ooh  
You stole my heart with grace  
And I don't want you to give it back to me

Oh, I gotta see you dancing on the edge  
Every time you turn around I lose my breath  
I don't wanna see you drown and fall  
Scarlet paintings on the bathroom floor

Lost in a storm  
Though we learned to carry on  
But when the loss burns inside  
It's the cold that makes you hide  
My baby blue  
This is what we're going through  
We're doing good, we're going mad  
And after all it's not too bad

'Cause you  
You stole my heart with grace  
Ooh-ooh-ooh  
I'm just trying to embrace  
You-ooh  
You stole my heart with grace  
And I don't want you to give it back to me

Oh, I gotta see you dancing on the edge  
Every time you turn around I lose my breath  
I don't wanna see you drown and fall
