

## Into the Wild

## Miracle Of Sound

Light at the end of the slumber  
Life at the close of the sleep  
Facing the world with a hunger  
Clambering out of the deep

Blank slate  
A trip to begin  
Look to tomorrow  
Clean plate  
A fresh little wind  
A road to follow

Into the wild  
Into the vast  
Into the beauty  
Emerging at last  
Into the wild  
Into the fray  
Up and away  
Gliding over the past

Sun and the rain and the thunder  
Prized, for the world is my shrine  
So many places I've wandered  
So many I've yet to find

Strong hearts  
Will master the means  
Firm blades and engines  
Small parts  
I've seen in the dreams  
Tall towers ascending

Into the wild  
Into the vast  
Into the beauty  
Emerging at last  
Into the wild  
Into the fray  
Up and away  
Gliding over the past

Strange voices lead me forward...  
Keep guiding me

Into the wild  
All take a stand  
Kin of the rivers  
Souls of the sands  
Wings on the wind  
Stone on the skin  
Together we band

Into the wild  
Into the vast  
Into the beauty  
Emerging at last

Into the wild  
Into the fray  
Up and away  
Gliding over the past

Light at the end of the slumber
