

# London Town

## Miracle Of Sound

Slaves in seas of soot we drown

Come on down  
To London town

The cogs they creak  
And the pistons pound

Come on down  
To London town

Power cloaked in progress  
Smoke in Eden's eyes  
A million choking chimneys burn  
And blacken out the sky

So grab your mates and join us  
Where the rats rejoice  
The brazen brass  
Of the working class  
Are here to find their voice

Revolution holds us bound

Come on down  
To London town

Break your back for class and crown

Come on down  
To London town

Steam train running on a reckless rail  
Speeding right into the rising gale  
Shovel harder cause we're on your tail  
London's bloody cry

London's bloody cry

Cripple to deliver  
The spoils of industry  
Crimson are the rivers  
Bleed our grief into the sea

Slaves in seas of soot we drown

Come on down  
To London town

The cogs they creak  
And the pistons pound

Come on down  
To London town

Steam train running on a reckless rail

Speeding right into the rising gale  
Shovel harder cause we're on your tail  
London's bloody cry

Steam train running on a reckless rail  
Speeding right into the rising gale  
Shovel harder cause we're on your tail  
London's bloody cry

London's bloody cry

Cry revolution, broken dreams  
Cruel revolution  
Smoke and steam

(London's bloody cry...)

Come on down  
To London town

Come on down  
To London town

Cry revolution, broken dreams  
Cruel revolution  
Smoke and steam
