

When I Swing By

Miracle Of Sound

Well here I go
Spinning silk across the skyline
Follow the flow of every corner, every street
Places to go
But I'm generous with my time
Responsibility can be so bittersweet

And when the clouds are blotting out the sky
I swing upon on the silver lining

And when I swing by
I'll sling away your troubles
Yeah when I swing by you'll shine
And I know that life
Can often be a struggle
But you'll soon be feelin' fine
When I swing by

Wisdom is earned
In the dark I keep believing
A fallen guide can be like losing part of you
I try to learn
Even when I take a beating
Ambition weaves a web that failure can't get through

And when the clouds are blotting out the sky
I swing upon on the silver lining

And when I swing by
I'll sling away your troubles
Yeah when I swing by you'll shine
And I know that life
Can often be a struggle
But you'll soon be feelin' fine
When I swing by

And I know it's
Not easy
So much is gone
But keep growing
Keep dreaming
And go pass it on

And when I swing by
I'll sling away your troubles
Yeah when I swing by you'll shine
And I know that life
Can often be a struggle
But you'll soon be feelin' fine
When I swing by

Here I go!
