

'Cause We Live for Love

Miriam Makeba

The morning sun shines full of laughter
Waking up, all walks of life
Shining on love he says
It's a brand new day
Give all the warmth you can away

And!!
Open your hearts
For our children and the universe
To love and hold
Embracing the good
In those who feel they must give of themselves
'Cause we live for love
And love lives through all

The evening star (shines on) each person
With a sparkle of light and a smile
Touching the hearts for all to feel
The presence of love, for it's real!

So!!
Open your hearts
For our children and the universe
To love and hold
Embracing the good
In those who feel they must give of themselves
'Cause we live for love
And love lives through all

Let the rainbow rain showers on you
Raining down, all colours for all
Sowing seeds and dreams of the future
A though of love and peace forever more

Open your hearts
For our children and the universe
To love and hold
Embracing the good
In those who feel they must give of themselves
'Cause we live for love
And love lives through all

'Cause we live for love through love
