

Darling

Miro Žbirka

Darling you're dancing through my mind
The images unwind
In that glamorous ballroom gown
You blew away half the town

Darling you're swimming through my head
An underwater bed
In that stunning black lingerie
Hinting at worlds to be
Darling I followed where you led

You've always been the dream
Queen
Of the whole mad scene
You've always made the night
Bright
And it felt so right

Darling you're winning every game
Laughing through the flames
In that silvery sportscar
Celebrates who you are
Darling I'm so glad you came
