

Let Me Down Real Slow

Miro Žbirka

Gotta let me down
Really slowly now
If you've got to go, just let me know
I won't be following
Don't you hold it back
Till it turns to black
If you've got to leave, I'll duck and weave
There'll be another spring

Though I can't think why we went and tore in two
But I'll never try to blame it all on you
Switching off the lights
Is really easy babe
When you're on the train, you laugh again,
Time to fold it up
Don't you know that flush
Was already bust
Like a risky play, it blew away,
No more left in the cup

Well I once believe that losing was a joke
Well I don't know how our game went up in smoke

Please let me down real slow
I know you've got to go
Please let me down real slow
I know you've got to go

Won't you let me out
Really careful now
When the fire's gone, can't carry on
Still living a lie
Gotta help yourself
Come out of that shell
There's world out there, so much to share,
I saw it in your eyes

Though I can't see how we tripped on that mistake
And I couldn't see the hourglass would break

Please let me down real slow
I know you've got to go
Please let me down real slow
I know you've got to go

Don't you let me down
