

Nothing Ever Rhymes

Miro Žbirka

Nothing ever rhymes for me
Sun don't always shine for me
Nothing ever rhymes etc
Just when things are looking great
There's a question on my plate
Nothing ever rhymes for me

Now you've been gone all night
And that don't feel quite right

Nothing ever rhymes for sure
Will we ever find a cure
Nothing ever rhymes for sure
When you think you've reached your goals
Then they vanish down a hole
Nothing ever rhymes for sure

Now you've put on your gown
You know it brings me down

Though we were even at the start
Time is on your side
There's a delay inside your heart
Tells me love won't fly

Now you've jumped in your car
Looks like you're travellin' so far

Though we were rollin' pretty well
Fate got in the way
And then I didn't hear the bell
Chime that it was day

Nothing ever rhymes for me
Mountain can't be climbed you see
Nothing ever rhymes for me
Just when we had hit the peak
Then I heard the ladder creak
Nothing ever rhymes etc
