

It's a brand new song
JD, Mis-Teeq are coming back strong!
Are you ready for a brand new track?
It's a brand new day, so make way for the ladies, ha

So where you been where ya gone?
Since July I've been around the world 50 times
So tell me where's the action?
I'm feeling Miami, cruising down Ocean Drive
So tell me what have you learnt?
I've learnt to just keep my cool and let it ride
So tell me when's it your turn?
2003 we're gonna blow the spot

Mis-Teeq's gonna show ya, got something for ya
Coming to destroy ya, we got a little something gonna blow ya mind
We ain't gonna bore, coming back on tour
Lots of funky melodies you're gonna like for sure

Newsflash, newsflash
We're back, we're back
Mis-Teeq with another hot track
Put on ya seat belt, green light, go Accelerate blow like Nitro
New rhymes, new rhymes
New times, new times and we're still lickin' on both sides
Put on ya seat belt, green light, go, Accelerate blow like Nitro

So what's next on your cards?
Back to the UK gonna rip up the charts
They didn't think it would last!
No media hype's gonna tear me and my girls apart
Did the fame change your heart?
I remained the same grounded from the start
You're coming back with a blast!
2003 we're gonna blow the spot

I think you will find that we are one of a kind
We are the missus divine, we're gonna tickle ya spine
Like Freud resurrected play with ya mind
We feed you the nourishment your body can't find
Mis-Teeq's back with the flow
Are you ready for the sound that we bring say so
Ready for the songs that we've wrote say yo
Ready for the launch of a brand new flow!
1, 2, 3, 4 we're bringing flavours that you've never heard before
3 women MC's ya know we're breaking down ya doors
Be in the studio from dusk till dawn and when the sun rises
Straight to the morn the children be singing
The Mis-Teeq songs then the damage is done
We're feeling good you know we're second to none, yo
We're gonna bring ya some new action

You'll see you're in for a treat
JD and Mis-Teeq bringing you some brand new flavours
See you're in for a treat
JD and Mis-Teeq bringing you some brand new flavours
