You tried so hard to listen But you never understand Well I'm glad you're so indifferent 'Cause it's dead and gone today You're wrong You know it's not the first time you've been told And I know You're so entertaining Honestly You were never there for me Despite how many times I tell you You still give me the 3rd degree You tried so hard to listen But you never understand Well I'm glad you're so indifferent 'Cause it's dead and gone today Baby, please; listen to me I'm stuck in a nightmare I'm overseas; plagued by disease While you're caught in the middle Honestly You were never there for me Despite how many times I tell you

You still give me the 3rd degree I'll let it go Reap what you sow I'll admit I'm terrified Of where you'll be when I backslide Provoke me with all your regrets 'Cause you're so controlling You tried so hard to listen But you never understand Well I'm glad you're so indifferent 'Cause it's dead and gone today You're wrong You know it's not the first time you've been told And I know You're so entertaining Honestly You were never there for me Despite how many times I tell you You still give me the 3rd degree I'll let it go Reap what you sow You still give me the 3rd degree
