

Hit the Road

Miss Fortune

Let's set it off
Like an engine
Go turn the key
Let's fall in love
Break the silence with a pound of a heartbeat
Don't close the door
When the storm has yet to come
The winds of change are blowing
Good things just wait for the sun

Now I ain't achin' for a one night stand
I know deep down you feel the same
Let's go
'Cause I want more
I gave up my dreams
All just making a name
I can't keep you warm
With fortune and fame
So let's go
Hit the road
