

# Never Let Me Stay

Miss May I

Taking back control  
Are you taking me away?  
I don't wanna go  
But you never let me stay  
Taking back control  
Are you taking me away?  
I don't wanna go  
But you never let me stay

Fall asleep in worry  
Drowning in my head  
About the earth and wild  
Slowly I forget  
I wanna come back home  
But I'm afraid that I stepped out alone  
Should I be ashamed?  
Maybe I'm to blame

Taking back control  
Are you taking me away?  
I don't wanna go  
But you never let me stay (Never let me stay)  
Taking back control  
Are you taking me away? (Are you taking me?)  
I don't wanna go  
But you never let me stay (Never let me stay)

Barricades have crumbled  
The effect with the dust  
Safe and sound no longer  
Nothing left to trust  
I know I shut myself out  
I know I'm in my way  
Prisoner to my doubts  
Can I be saved?

Taking back control  
Are you taking me away? (Are you taking me?)  
I don't wanna go  
But you never let me stay (Never let me stay)  
Taking back control  
Are you taking me away? (Are you taking me?)  
I don't wanna go  
But you never let me stay (Never let me stay)

But I will, I will  
But I will, I will

I know I shut myself out  
I know I'm in my way  
Prisoner to my doubts  
Can I be saved?

Taking back control  
You've been taking all control again

Taking back control

Are you taking me away? (Are you taking me?)  
I don't wanna go  
But you never let me stay (Never let me stay)  
Taking back control  
Are you taking me away? (Are you taking me?)  
I don't wanna go  
But you never let me stay (Never let me stay)
