

# Under Fire

Miss May I

Knocked down  
Undressed humanity drowning in resistance  
Lights out  
Signs of the enemy hiding in the distance

There's no time, nowhere to run  
But someone's got to lose  
It's your life, your chance to run  
Or your chance to prove

Under fire I won't turn away  
Through it all I will stand  
I will carry on  
I will carry on

Under fire  
Under fire

Reckless  
No more apologies  
No more contradictions  
Fury  
Sealed with this sanity  
Pulling through conviction

There's no time, nowhere to run  
But someone's got to lose  
It's my life, my time to stand  
It's my time to prove to you

Under fire I won't turn away  
Through it all I will stand  
I will carry on  
I will carry on

Under fire  
I will fight for this  
Under fire  
Won't give in  
Under fire  
I will fight for this  
Under fire  
No I won't give in

Under fire I won't turn away  
Through it all I will stand  
I will carry on  
I will fight for this  
I will carry on  
I will carry on
