

# Get Out

Mitchel Musso

You spin around like a broken record  
It plays your name everytime the needle skips  
It's been that way since the last december  
I can't live like this anymore  
You're stuck inside every conversation  
Yes I know that you're really good and gone  
But I'm a slave to this obsession  
How can I move on  
You're in my thoughts, in my head, in my heart, in my dreams  
And I wish you would stop haunting me

Get out get out  
I can't take it no more  
Breathe in breathe out  
Cause I die a little every time I think about you  
Get out get out  
Cause I'm going crazy  
I scream and shout  
I try everything but you're still here and I can't stop missing you

Ooh yeah  
The way I feel everytime you're with me  
How you say it all without a word  
I keep hearing time heals everything so tell me why does it still hurt  
Like you only just told me goodbye and I can't get you out of my mind

Get out get out  
I can't take it no more  
Breathe in breathe out  
Cause I die a little every time I think about you  
Get out get out  
Cause I'm going crazy  
I scream and shout  
I try everything but you're still here and I can't stop missing you

I hate to love you  
I hate to let you go  
You're good at leaving  
But I'm no good alone

Get out get out  
I can't take it no more  
Breathe in breathe out  
Cause I die a little every time I think about you  
Get out get out  
Cause I'm going crazy  
I scream and shout  
I try everything but you're still here and I can't stop missing you

Get out get out  
Breathe in breathe out  
You spin around like a broken record  
It plays your name everytime the needle skips skips skips skips skips skips  
skips skips skips
