

# Party With My Friends

MKTO

Rolling up, rolling up  
Somebody get another cup, another cup  
My phone keep blowing up, blowing up  
Getting money just for showing up, showing up (yeah yeah yeah)

Still I cry, still I cry  
The best days of our lives, of our lives  
Forget about the 9-5, 9-5  
Let's rage all through the night so alive  
Yeah yeah yeah

I wish that we could spend every single day this way (day this way)

Party with my friends and we all get wasted  
Take all my regrets let the love erase it  
Broke my heart, take a drink to chase it  
Broke my heart, take a drink, take a drink-drink  
Party with my friends and we all get wasted  
Take all my regrets let the love erase it  
Broke my heart, take a drink to chase it  
Broke my heart, take a drink, take a drink-drink

They can hate on us, the world is ours  
Ain't no time to stop and smell the flowers  
If there's something that you wanna let me know

You should say it now before I gotta go  
Yeah yeah yeah

Still I cry, still I cry  
The best days of our lives, of our lives  
Forget about the 9-5, 9-5  
Let's rage all through the night so alive  
Yeah yeah yeah

I wish that we could spend every single day this way (day this way)

Party with my friends and we all get wasted  
Take all my regrets let the love erase it  
Broke my heart, take a drink to chase it  
Broke my heart, take a drink, take a drink-drink  
Party with my friends and we all get wasted  
Take all my regrets let the love erase it  
Broke my heart, take a drink to chase it  
Broke my heart, take a drink, take a drink-drink

Drinks up  
Nothing's gonna change us  
Drink up  
Broke my heart, take a drink, take a drink-drink  
Drinks up  
Nothing's gonna change us  
Drink up  
Broke my heart, take a drink, take a drink-drink
