Two simple places
We wanted to go
Two simple things
You wanted to know

Everything around
I could not see
I wish I'd known
How much you loved me
Oh,
we could feel this way forever
[2x]

I watched the sun, cause it touches you while you sleep You gave me something, that I wanted to keep

I see you smile you smile like a little child And hold you crying when it all goes wild

Oh We could feel this way forever [6x]
