

Smiles And Laughter

Modern English

Can you feel the glow?
Can you see it smile?
Smell the warm air now
Breathe it in in volumes

We're watching you, this time will come
Let's enjoy some voice and sound
Enjoy as light relief
But look what comes tomorrow

What comes tomorrow, do we know?
What comes tomorrow, can you feel the glow?
Feel the sun, the sun unfold (untold)

We can move a mountain
Some will break and fall
Come on take us to them
We will fight them all

Feel the glow
Feel the glow
Feel the glow
Feel the glow

Can you feel it?
Can you feel it?
