

All I Have

Modern Talking

Oh it's now or never-it's no empty way
I will stay forever-babe what can I say
I miss you like crazy-where did you sleep last night
nobody knows you baby, please stay by my side

All I have, and all I need, and all I want is you tonight
All I see, and all I feel, is just holding you so tight
All I miss, and all I dream, and all I want is your sweet love
All I know, and all I say, is that I can't get enough

My love is getting stronger-my love is here to stay
I can't wait no longer-baby make my day
Oh tonight I'm lonely-so lonely without you
Know that you're the only-and my heart is true

All I miss is you, wherever I go, I miss you and I need you
