

Just Close Your Eyes

Modern Talking

Did I ever ever told you
That I miss you every night
And I cannot find my sleep girl
If I cannot hold you tight
Did I tell you when you left me
There's no sun up in the sky
And I cried so many times girl
Just like a broken toy
Oh I cannot stand the pain girl
It was over, I can see
And now you told me lady, there's a chance for you and me

Just close your eyes-and stay with me
There is a place-where I wanna be with you
Just close your eyes-take me in your heart
I will love you pretty baby, if you try a start

Did I ever ever told you
That I dreamt of you last night
Is there anything I can do
cause I wanna hold you tight
Did I tell you I was dying
Oh you turned away from me
Took away my sweet sweet heaven
And I lost my destiny
Oh I cannot stand the pain girl
It was over, I can see
And now you told me baby, there's a second chance for me
