

Dreamers

Mohombi

Someday we'll rise
We'll live the life that we never had
We'll face our problems
Embracing the future we long to have

They'll be missing through the night
Imagination will take hold
Go on till we reach the high

We are the dreamers
Make-believers
We are the dreamers
We live in the sun

We'll climb the mountains
Through darkness we'll let our collar shine
In front of thousands
We light up the world, bring you back to life

They'll be missing through the night
Imagination will take hold
Go on till we reach the high

We are the dreamers
Make-believers
We are the dreamers
We live in the sun

We're dreamers
Yeah, yeah, yeah
Make-believers
Yeah, yeah, yeah

We are the dreamers
Make-believers
We are the dreamers
We live in the sun
