

# In the Darkness of the Night

Molly Hatchet

True warriors stand as one  
Men of conviction body, mind and soul  
The battle stems from within  
Fight for something greater than anyone man

They will fight for freedom and what is wrong  
Handed down through generations a bloodline that is strong  
So our children can live upon this land  
We will fight to the death, we will fight where we stand

In the darkness of the night  
Fire in the sky  
In the darkness of the night  
As we're fighting for our lives

As I'm standing on the battle ground  
Nothing's moving, I can't hear a sound  
I heard the chanting in the black of the night  
And all the masses seen to come to life

Say your prayers and count your blessings  
Don't 'cha dare take any chances  
Better to die standing proud on your feet  
Than live your life down on upon your knees

Almighty warrior shine down on me  
And hold me close to your heart  
Oh warrior spirit let us kneel down and pray  
For the souls of the men... the men that won't leave here today

In the darkness of the night  
Fire in the sky  
In the darkness of the night  
Fighting for our lives

In the darkness of the night  
Fire in the sky  
In the darkness of the night  
As we're fighting for our lives  
Let the spirit... LET THE SPIRIT FLY
