

Kiss me on the lips let me feel alive
Pressed between your thumb and your forefinger
Love is just another word for killing time
And hope is just a thought that refused to die

I'm on the road to hell, I'm on the fire inside
I'm on the kingdom come, you're gonna see the eyes
I'm on the road to hell, you see the Shys at 5
She caused a rouse in 'em, you come around tonight

I don't mind if the sun don't ever shine
No I, I don't mind that much tonight
No I, I don't vibe, let mercy take us live
No I, I don't mind that much tonight

Hold me in your heart and refuse to die
Look me in the eyes and convince the lie
Tell me truth have you been more than misinformed
Look into the windows of the coming storm it goes

I'm on the road to hell, I'm on the fire inside
I'm on the kingdom come, you're gonna see the eyes
I'm on the road to hell, you see the Shys at 5
She caused a rouse in 'em, you come around tonight

I don't mind if the sun don't ever shine
No I, I don't mind that much tonight
No I, I don't vibe, let mercy take us live
No I, I don't mind that much tonight

Just to feel alive
Just to feel alive

I don't mind if the sun don't ever shine
No I, I don't mind that much tonight
No I, I don't vibe, let mercy take us live
No I, I don't mind that much tonight
