I got my dark glasses on they got me feeling great  
I got my eye, got my eye, got my eye on you  
You're acting like you got nothing to prove

I'll keep talking  
I don't care who's listening  
I'll keep talking  
I don't know when to shut my mouth

You say being cool is over  
You say being cool is over

I can't change, you change, I like who I am  
I must have missed the indie rock entrance exam  
I'm a man with a plan a nuclear threat  
I haven't even got started yet

I'll keep talking  
I don't care who's listening  
I'll keep talking  
I don't know when to shut my mouth

You say being cool is over  
You say being cool is over  
Oh...being cool is over  
Oh...being cool is over

Just play one more song  
Or I'm not going home  
Just play one more song  
Or I'm not going home

Just play one more song  
Or we're not going home  
Just play one more song  
Or we're not going home

You say being cool is over  
You say being cool is over  
Oh...being cool is over  
Oh...being cool is over
