

## Devil Don't Care

Monster Truck

Way far down a dirt road  
Is a place I found where the devil used to go  
He ain't been here for some time  
You can tell by the way nothing good ever seems divine  
Cause the devil don't care about the bills you have to pay  
The devil don't care about what you have to say  
The devil don't care about you anymore

Trouble used to be the mark of the beast  
With all these problems we gotta take the blame at least  
It ain't him that makes you do your wrong  
It ain't him who gave me the words to sing in this song  
The devil don't care with markets are not safe  
The devil don't care if you think you are free and brave  
The devil don't care about you anymore

How many times have you helped your brother?  
How many times have you heard your sister's plea?  
Now is the time for us to need each other  
Now is the time to set your worries free, oh set 'em free!

You can't sell your soul  
If nobody wants to buy it  
Sell your soul  
It's already second hand  
...

How many times have you helped your brother?  
How many times have you heard your sister's plea?  
Now is the time for us to need each other  
Now is the time to set your worries free, oh set 'em free!
