

Hurricane

Monster Truck

Blaze across the sky on 5 tonnes of power
Tearing holes in space and time
Slicing through the air at a million miles an hour
With no reason and no rhyme

I got speed in my blood, no fear in my bones
Gonna sever the atmosphere
I got speed in my blood, no fear in my bones
Gonna sever the atmosphere

You better get outta my way!
Like a hurricane, right up in your face
Like a hurricane, there in no escape
There is no escape!

Tearing through space smashing my ride baby
Through the barriers of sound
Going faster than a f*cking cannonball
Never headed for the ground

I got speed in my blood, no fear in my bones
Gonna sever the atmosphere

I got speed in my blood, no fear in my bones
Gonna sever the atmosphere

You better get outta my way!
Like a hurricane, right up in your face
Like a hurricane, there in no escape
There is nothing in this world
That can you give you what i take
Like a hurricane, there is no escape
No escape!

Like a hurricane, there in no escape!
Like a hurricane, there in no escape!
There in no escape, there in no escape, there in no escape!

Like a hurricane, right up in your face
Like a hurricane, there in no escape
There is nothing in this world
That can you give you what i take
Like a hurricane, there is no escape
No escape!...
