

New Soul

Monster Truck

Alright now, won't you come with me?
Give your hand to me.
Let's ride all night, by the pale moonlight,
Carve a path through this country.
With a drink of whiskey, under the stars,
You may come fast with me.
Oh my girl, won't you come with me?
And we can both be free.
We can both be free.

[Chorus:]
Oh new soul, give me your love.
(Give me your love, give me your)
Diamond woman, give me your love.
(Give me your love, give me your)
Wrap your arms around me now,
And never let me go.
Oh new soul, give me your love.

Oh my girl, I will be your rock,
Your shelter from the storm.
I'll be your lovin' teddy bear,
I'll always keep you warm.
So promise me you'll always be mine,
And I'll make vow of my own.
Oh my girl, won't you come with me?
And we can both be free.
We can both be free.

[Chorus]

Yeah!

Oh give me your love.

[Chorus]

Give me your love
(Give me your love, give me your)
Give me your love
(Give me your love, give me your)
(Give me your love, give me your)
(Give me your love, give me your)
(Give me your love)
Give me your love.
