

# Come Home

Montell Jordan

Baby  
I've been thinking about our love  
And thought  
Maybe...  
We could spend a little time, because  
Lately  
The moments that we share have been so  
Shaky  
You're still here, but you're not here

Girl, you're been away too long  
Won't you come home  
Come home  
I been missing you  
Since you been gone  
Won't you come home  
Come home

You said...  
That you need a change of pace, and so  
I said...  
We both could use a little space  
Never thinking...  
A little while would be forever without your love  
Without your love

I can't imagine life  
I can't imagine loev  
If you're not here with me  
'Cause I can't get enough  
So when you change your mind  
My arms are open wide  
Do what you gotta do  
Just know I'm missing you

Girl, you're been away too long  
Won't you come home  
Come home  
I been missing you  
Since you been gone  
Won't you come home  
Come home

Girl, you're been away too long  
Won't you come home  
Come home  
I been missing you  
Since you been gone  
Won't you come home  
Come home

I can't imagine life  
I can't imagine loev  
If you're not here with me  
'Cause I can't get enough  
So when you change your mind  
My arms are open wide

Do what you gotta do  
Just know I'm missing you

Girl, you're been away too long  
Won't you come home  
Come home  
I been missing you  
Since you been gone  
Won't you come home  
Come home
