

Never Been Nothing Else

Montgomery Gentry

Long neck, country road cruise
Shot up stop signs, shot back through
Barney hit me with the blues
But it gave me a warnin'
Bar fight, got a black eye
Standin' up for what I thought was right
Girlfriend won't talk to me all night
But she gonna love me in the mornin'

Never been, never been nothin' else
Never been nothin' but myself
Guess I'm still the same ol' me
Guess I'm always gonna be
Never been, never been nothin' but
Beat up boots and a pickup truck
Raisin' hell in the Bible Belt
Never been nothin' else

I'ma do my work, look you in the eye
Don't play with dirt kind of guy
Might miss a little church
But when I die I know where I'm goin'
I don't vote left or right
I vote right or wrong
You wanna fight my flag, let's get it on
Red, white, and blue all day long
My true colors always showin'

Never been, never been nothin' else
Never been nothin' but myself
Guess I'm still the same ol' me
Guess I'm always gonna be
Never been, never been nothin' but
Beat up boots and a pickup truck
Raisin' hell in the Bible Belt
Never been nothin'

But a truth tellin', say it like it is
Foot in my mouth, just a grown up kid
Work hard, live right, try my best
Nothin' more and, no, nothin' less

Never been, never been nothin' else
Never been nothin' but myself
Guess I'm still the same ol' me
Guess I'm always gonna be
Never been, never been nothin' but
Beat up boots and a pickup truck
Raisin' hell in the Bible Belt
Never been nothin' else
Never been, never been nothin' else
Never been nothin' but myself
Guess I'm still the same ol' me
Guess I'm always gonna be
Never been, never been nothin' but
Beat up boots and a pickup truck
Raisin' hell in the Bible Belt

Never been nothin' else
