

# Fade Away

Morgan Page

Do you remember when  
We were only friends  
We walked an open road together  
And oh ten years flew by  
And you're still on my mind  
Feels like the road goes on forever  
People in places they're drifting away  
Hope they  
Don't get caught in the pouring rain  
Maybe we'll meet up again someday  
So I raise my glass to you

You could be a hundred miles away  
Lost in the milky way  
Not gonna let you fade away  
Are you out on the golden coast  
Hey only heaven knows  
Not gonna let you fade away  
Let you fade away  
Let you fade away  
Let you fade away  
You might be far away  
Not gonna let you fade away

I been writing stories  
And hold on to the glory  
And to the words I never used  
So I keep writing songs  
And hope the day will come  
My words will find their way to you

People in places they're drifting away  
Hope they  
Don't get caught in the pouring rain  
Maybe we'll meet up again someday  
So I raise my glass to you  
You could be a hundred miles away  
Lost in the milky way  
Not gonna let you fadeaway

Are you  
Are you out on the golden coast  
Hey only heaven knows  
Not gonna let you fade away  
Let you fade away  
Let you fade away  
Let you fade away  
You might be far away  
Not gonna let you fade away

Let you fade away  
Let you fade away  
Let you fade away  
You might be far away  
Not gonna let you fade away
