

Empty Box

Morphine

Tore open a package it was an empty box
No meaning to me just an empty box
Sender was a woman
Sender was a woman
She said she's sending me everything that I I I never gave her
before
She said fill it up and send it back
Fill it up and send it back
So I send her back an empty box
A big mistake sent back an empty box
Half in the shadows half in the husky moonlight
And half insane just a sound
I crossed into a valley a valley so dark
That when I look back I can't see where I begin
I can't see my hands
I don't even know if my eyes are open
In the morning I was by the sea
And I swam out as far as I could swim
Until I was too tired to swim anymore
And then I floated and tried to get my strength back
And then an empty box came floating by
An empty box and I crawled inside
Half in the shadows half in the husky moonlight
And half insane just a sound in the night
Half in the shadows half in the husky moonlight
And half insane just a sound
