

Good

Morphine

You're good, good, good
Good
You're good, good, good
You're good

Somethin' tells me, somethin' tells me,
somethin' tells me you can read my mind
Somethin' tells me, somethin' tells me,
somethin' tells me you can read my mind

Somethin' tells me you can read my mind
Your brain is callin' to me one more time

Your brain, your brain,
your brain is callin' to me one more time
Your brain, your brain,
your brain is callin' to me one more time
You're good

You push, push, push
So good
You push, push, push
You're good

Somethin' tells me, somethin' tells me,
somethin' tells me you can read my mind
Somethin' tells me, somethin' tells me,
somethin' tells me you can read my mind

Somethin' tells me you can read my mind
Your brain is callin' to me one more time
Somethin' tells me you can read my mind
Your brain is calling to me one more time

Your brain, your brain,
your brain is callin' to me one more time
Your brain, your brain,
your brain is callin' to me one more time

You're good, good, good
So good
